Riverton City Ordinance Title 14-1-16 states that an application for water service made by tenant of a property must be guaranteed in writing by the owner of a premises or his duly authorized agent. Riverton City will require that this documentation remain on file with the city for all landlord/tenants properties within the city. This is the protection of the homeowner. If the tenant becomes delinquent in his Riverton City bill the homeowner will also be notified by mail. Water is an alienable item against the homeowner's property. Any amount left owing will be sought through means of collection. If the city is unsuccessful the property owner will be held liable to pay the balance.

I accept and agree to the above described terms and conditions of permitting the tenant of my property located at: \_\_\_\_\_ to open a water service account.
